BUTCHER BROOM + WATERCRESS

Beta Carotene (Vitamin A) maintains the collagen of the skin, hydrates it from the inside and activates cell renewal. Vitamin C protects the skin by L-ascorbic acid or (vitamin C), captures free radicals and neutralizes them to preserve the skin from cellular damage. Vitamin E promotes tone.

MACA

Maca contains a high level of carbohydrate (60 to 75%) and protein (10 to 14%). These carbohydrates and proteins are essential for the formation and regeneration of cutaneous cells and hair. Thus, maca stimulates hair growth. The flavonoids and tannins in maca will heal cell damage. This acceleration of healing will limit hair loss.
