#### RICE PROTEIN

Rice proteins have the ability to swell in the presence of water. This creates a volumizing effect to the hairs. This ability also contributes to the hydration of the hair. In fact, the proteins create a physical barrier against external aggressions. This physical barrier keeps the water in the hair, thus maintaining hydration for the hair.

#### SILK PROTEIN + OAT

The proteins of silk and oats will penetrate deep inside the hair in order to nourish the hair which will bring shine to it.
