

## HFC Adult Fresh Salmon

Also Available: [Fresh Beef](#) [Fresh Cod](#) [Fresh Chicken](#)

[Adult 1+ year](#) [Complete](#)

300 g

1.2 kg

HFC Adult Sterilised kibble range is manufactured from HFC ingredients, that is, originally fit for human consumption and now used in our recipes for cats. The same quality as we would choose for ourselves. HFC Adult Sterilised with 100% fresh whole meat and 0% meat-and-bone meal or dehydrated meat/fish guarantees high nutritional value and digestibility thanks to reduced storage and processing stages (digestible protein up to 98.73%, University of Teramo study). Complete single-protein pet food ideal for spayed and neutered adult cats, formulated with low magnesium content to help prevent kidney stones, moderate fat content and adequate fibre intake to support the actual needs of house cats. The addition of cranberries contributes to reducing the incidence of urinary tract infections. Free from artificial preservatives or colours. Almo Nature recommends rotating recipes regularly, by offering different protein sources and wet and dry recipes to ensure a varied diet and cater for even the most finicky of feline palates! The plastic and aluminium poly-bag, chosen for proper product storage, can be reused to produce energy if disposed of correctly. HFC Adult Sterilised – 4 kibble recipes for cats, also non-sterilised – available in 300 g e 1.2 kg bags. Almo Nature is the activist pet food brand owned entirely by Fondazione Capellino.
