

## HFC Kitten Fresh Chicken

Also Available:

Kitten 2-12  
months

Complete

300 g

1.2 kg

HFC dry Kitten food is manufactured from HFC ingredients, that is, originally fit for human consumption and now used in our recipes for kittens. The same quality as we would choose for ourselves. HFC Kitten with 100% fresh whole meat and 0% meat-and-bone meal or dehydrated meat/fish guarantees high nutritional value and digestibility thanks to reduced storage and processing stages (digestible protein up to 98.73%, University of Teramo study). A complete single-protein pet food with naturally gluten-free grains, also suitable for pregnant or lactating females. Without artificial preservatives or colours, HFC Kitten kibble contains everything you need to help with your kitten's healthy and balanced growth from 2 to 12 months. Almo Nature recommends a rotational diet by offering different protein sources and dry and wet food to both ensure a varied routine and cater for even the most finicky of feline palates! The plastic and aluminium poly-bag, chosen for proper product storage, can be reused to produce energy if disposed of correctly. HFC Kitten – kitten kibble – available in 300 g and 1.2 kg bags. Almo Nature is the activist pet food brand owned entirely by Fondazione Capellino.
