Capellino

HFC Puppy dry kibble recipes are manufactured from HFC ingredients, that is, originally fit for human consumption and now used in our recipes for puppies. The same quality as we would choose for ourselves. HFC Puppy dry food recipes with 100% fresh whole meat and 0% meat-and-bone meal or dehydrated meat/fish guarantee high nutritional value and digestibility thanks to reduced storage and processing stages (digestible protein up to 98.73%, Journal of Veterinary Science & Research, 2022). Complete pet food balanced with naturally gluten-free rice and suitable also for pregnant or lactating females. Without artificial preservatives or colours, HFC Puppy dry kibble contains all that is necessary to help with your puppy's healthy and balanced growth from 2 months to adulthood. Almo Nature recommends rotating recipes regularly, by offering different protein sources and adding a small quantity of wet food recipe to ensure a varied diet and cater for all palates. The plastic and aluminium poly-bag, chosen for proper product storage, can be reused to produce energy if disposed of correctly. HFC Puppy – 2 dry kibble recipes for puppies, medium and large breeds – available in 1.2 kg and 8 kg bags. Almo Nature is the activist pet food brand owned entirely by Fondazione Capellino.
